STILL IMAGES:

1. **ATRIUM.** Shown here is the light-filled atrium of the Perot Museum of Nature & Science. The atrium showcases the various levels of the Museum, and the glass windows provide a stunning view of downtown Dallas.
2. **AUDITORIUM.** Shown here is the flexible-space auditorium, which is located partially below the ground level facing Field Street.
3. **CAFÉ AND STORE.** Shown here is the café, theater and retail store, which will be located on the Lobby level of the Perot Museum of Nature & Science.
4. **CLASSROOM.** The Education Wing of the Perot Museum of Nature & Science will feature six large spaces that will be used as labs and classrooms.
5. **ENTRY PLAZA.** Shown here is the Plaza, which will serve as the main entrance of the Perot Museum of Nature & Science. It will be a public space used for casual visits, gatherings and public events.
6. **ESCALATOR.** One of the signature features of the new museum will be a 54-foot continuous-flow escalator contained in a 150-foot tube-like structure that dramatically extends outside the building. It will take visitors from the light-filled lobby atrium to the museum's top floor, providing a bird's-eye view of downtown Dallas.
7. **FLAG VIEW.** Shown here is a view of the Perot Museum of Nature & Science from River Street looking back at downtown Dallas.
8. **FULL MUSEUM VIEW.** Shown here is a view of the Perot Museum of Nature & Science looking north from downtown Dallas.
9. **LOBBY.** Shown here is the expansive glass-enclosed Lobby. With entrances on all four sides of the building, visitors will have easy access into the Perot Museum of Nature & Science.
10. **NIGHT VIEW.** At nighttime, the Perot Museum will become a dramatic addition to the Dallas skyline.
