

Museum of Nature & Science Girl Scouts of Northeast Texas

With hands-on exhibits, collections covering approximately 1.7 billion years of the Earth's history and science that will blow you away, the Museum of Nature & Science is the perfect place to challenge, entertain and educate scouts and families alike.

Enjoy our permanent exhibits with everything from dinosaurs and DNA to hands-on physics. Add a thrilling IMAX® film in our 79 ft. domed TI Founder's IMAX® Theater. Enjoy our night's sky – during the day! – with a Planetarium show. And complete your visit with an "out of water"

traveling exhibition that will leave you breathless.

Planet Shark: Predator or Prey takes you through the murky myths and fascinating facts that have surrounded sharks for centuries. These feared predators are also one of the most preyed upon creatures. Don't be scared, this exhibit is great for

young and old, with a special kid's activity area to draw on a daily art mural, read shark books, enjoy underwater themed puzzles and more!

Whether you're up for a day of family fun, a scouting adventure or both, the Museum of Nature & Science has you covered.
